

The 'Add Devices' window will pop up automatically. Select 'Add Devices'.

To add device (eg garage door opener), click on 'Scan QR Code' and scan QR Code on transceiver (pictured right) or on card provided with transceiver.

The device is registered. You can name your device (e.g. Front Door).

The set up is done. You can now operate your door.

**YOUR SET UP IS DONE!
YOU CAN NOW USE
YOUR SMART PHONE TO
CONTROL YOUR DEVICE.**

SMART PHONE CONTROL KIT QUICK SET UP GUIDE

The Smart Phone Control Kit works via your home's WiFi network. Initial set up involves linking your phone app, smart hub and device (e.g. garage door opener) to your home network so that you can reliably operate your door from the app. This user guide will show you the steps required to get you started.

Note: The app supports smart device Android 4.4 and above, and iOS 8.4 and above.

BEFORE YOU START:

1. Have your garage door or other device ready to operate.
2. Place Smart Hub within range of your home WiFi router.
3. Connect Smart Hub to power.
4. Download the Automatic Technology App. (Scan one of the QR codes below.)
5. Open the App and tap "Start". Follow the steps.

Scan QR code to view video version of this guide.

DOWNLOAD THE APP:

Scan QR code to download Automatic Technology App for iOS devices.

Scan QR code to download Automatic Technology App for android devices.

AUTOMATIC TECHNOLOGY APP 5 STEP SET UP:

Tap on 'Start':

Select...
Setup a new Smart Hub.

Step 1.
First, you connect your phone to the Smart Hub.

Go to your phone's settings. Select WiFi, then select the Smart Hub WiFi (ATA000).

Go back to the app. Select 'Connect':

Step 2.
To confirm, press the button on the Smart Hub.

Step 3.
Name your Smart Hub (e.g. Home).

Step 4.
Set Time Zone.

Create an Admin User (note minimum of three characters required).

It is recommended to provide email address and Security questions for Password recovery.

Step 5.
Connect to your home WiFi.

In the app, select your home WiFi.

You will need to enter the password for your home WiFi. When done, select 'Connect'.

To connect to your home WiFi, click 'Connect'. The five steps are completed and you can register your devices, see next page.
